Teaching injured or deconditioned clients requires a different approach to the session and a different mindset throughout the client's attendance. This course outlines the protocol for teaching post-rehabilitative clients, from the initial meeting and first session to ongoing sessions and a return to recreational activities. Key concepts and definitions of injuries, post-rehabilitation and healing are covered. Students will be taught the benchmarks to hit before progressing a client to more challenging exercises and the importance of maintaining a dialogue with the client's treating physician(s). Subjected to forces from both the upper body, and lower body, the sacrum and lumbar spine are critical structures for maintaining healthy biomechanics of the entire body. If the student takes longer than a year to take the exam, a review hour must be scheduled with an IT at the rate of \$100/hr. This hour serves to ensure the student is on track with studying and the information hasn't been lost throughout the year.

A score of at least 80% is required to pass written exams. The practical is graded as pass/ fail.

Attendance Requirements

It is required that students attend every day of training. If a student has a conflict that cannot be resolved and must miss training hours, the student must notify Gerda Pilates prior to the course. Make up hours must be scheduled with an IT at \$100/hour. (Note that 3 hours of missed group training does not necessarily equal 3 make up hours as a student is often able to go through material faster in a one-on-one setting. The number of review hours will be decided upon by the IT and the Gerda Pilates).

Grievances/ Complaints

While we hope that everyone has a great experience with Gerda Pilates, we understand that problems can arise. Attempting to resolve any issue with the School first is strongly encouraged. You can let us know of any concerns or difficulties by emailing us at info@pilateswithgerda.com. We will get back to you ASAP and your comments will be kept confidential.

As Pilates engages touch for cueing and adjustment purposes, the program will require some level of touch, although sensitivity will be respected.

Student Complaints may be brought to the attention of the Pilates School Approval Program. Contact: PSAP@pilatesmethodalliance.org

No applicant will be denied on the basis of race, national origin, color, creed, religion, sex, age, disability, gender identity, gender expression, or sexual orientation.

Leaves of Absence / Holds

Students have the option to go "on hold" once during their year. The hold status can last for up to one year from the date of the hold. All students' benefits will cease during this period of time. A student may take advantage of this option if they are injured, have a personal emergency or are not progressing as required. If a student becomes pregnant, the student will have an extended hold until the student is six months post-partum.

We understand that at times students have to take personal time for various reasons. If you need to withdraw from training for a short period of time (one – 6weeks) we ask that you provide a letter, personally or from a doctor, explaining the circumstances. If you paid the program in full, the school will retain all payments and allow you to start with the next training course. If you are on an installment plan, you will continue to pay on the balance of the first attempted course. Leave of absences that are longer than 6 weeks will be treated as a drop. Your refund will be determined by the refund policy and will include all payments made in advance for any future training. Upon re-starting, the school will determine if you need to start fresh with a new course and pay the requisite tuition, or if you are eligible to jump into an existing program and tuition will then be calculated proportionately, based on the number of hours needed to complete."

Based on the length of time on hold, the student may be required to purchase and perform a Reentrance Evaluation (\$100.00 USD). Should any pricing change during the leave, the Trainee is responsible to pay the cost of the current prices

Extensions

Extensions are offered to provide extra time for students to prepare themselves for exams, complete internship hours or to extend their benefits and graduation date due to personal issues. Students are required to fill out, sign, and turn in an Extension Form to the Director of Education. If this does not occur, the student will be withdrawn from the program.

The student can take only 2 extensions (60 days). After that time frame, if the student does not start to program, the student will be required to re-apply for the entire teacher training program.
